

## Compliance Confirmation

Herewith we confirm, that neither in our processes nor in the processes of our directly suppliers substances or preparations were knowingly added or used which are sourced in conflict regions especially tin for plating from the DRC.

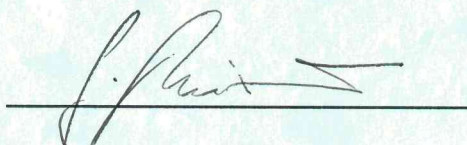

We certify that none of CAP PARTS AG products contains rare earth elements (REE).

We ensure that our attention is to oppose fraud, corruption, threat, violence, child labour and to respect the working conditions and social rights. Also we attend a fair and respectfully social intercourse between our employees and to ensure a safety and healthy working environment.

We use a quality and environmentally management system to keep and improve our performance in these parts.

All products we sent satisfy Directive 2011/65/EU (RoHS). We also act in accordance with the European Regulation 1907/2006 (REACH). According to information provided to us by our supplier, no substances from the latest Candidate List (SVHC list) exist in the material used by us in concentrations of more than 0,1 % by mass.
